

Interactive Science Notebook Set-Up

Materials Needed:

- spiral notebook
- Copies of handouts (see below)
- Packaging Tape
- Cover Page (see back of handout for instructions)

Steps:

1. Glue the table of contents sheet onto the front of the first page of the notebook.
2. Beginning on the front of the next page, number the front Pg. 1, the back Pg. 2, so on and so forth, in the upper outside corner of the page.
 - a. It is important that you number all of the pages 1-72 to help with maintenance of the notebook throughout the year.
3. Use the packaging tape to “lamine” the student-created cover onto the front of the notebook. This helps with durability throughout the year.
4. Glue in and review the following handouts.
 - a. Pg. 1 - Notebook Guidelines
 - b. Pg. 2 - Being a Good Science Partner
 - c. Pg. 3 - Science and Engineering Practices
 - d. Pg. 4 - Engineering Design Process
 - e. Pg. 5 - Engineering Rubric
